

Quality Assurance Requirements on Placing an Order (Aerospace)

Right of access to be afforded to Adamtech Ltd, their customer, and regulatory Authorities to all facilities involved in the order and to all applicable records.

Adamtech Ltd requires the supplier to flow down to sub-tier suppliers the applicable requirements in the purchasing documents, including key characteristics where required.

All orders will conform to the agreed specifications unless our prior written agreement is obtained.

The supplier shall inform the buyer of any changes to material specification, product or process. Any such changes, including changes in manufacturing source, will necessitate approval by our technical department.

Quality records, including manufacturing data, test data and retained samples shall be retained, as a minimum, for the shelf life of the material

Control of Counterfeit Material/Parts

The supplier ensures that only new, authentic and conforming materials shall be used in products or goods supplied to Adamtech and that the products/goods delivered shall contain no Counterfeit parts/material.

Counterfeit part/materials include an unlawful or unauthorised reproduction, substitution, or alteration that has been knowingly incorrectly marked, misidentified, or otherwise misrepresented to be an authentic or unmodified part/material.

Contribution to Product or Service Conformity and Product Safety

The supplier must ensure that all employees are made fully aware of their required contribution to product or Service Conformity and Product Safety, and ensure that this is complied with by all employees.

The Importance of Ethical Behaviour

Adamtech is committed to the highest standards of quality, health & safety, environmental and ethics; consequently, we require our suppliers to apply the same principles, including:

Guarantee the fundamental rights of their workers.

Provide a safe and healthy workplace

Guarantee the quality of all products and services – they must comply with designated specifications and standards.

Be environmentally responsible.

Comply with all relevant legislation including anti-bribery, anti-corruption and money laundering prevention measures.

Guarantee the accuracy and integrity of company records.

Protect information and intellectual property.
